Designer (Web/Graphic – Project-Based | REMOTE)

Description

SEE is looking for a talented Designer to **create visually appealing web designs and supporting graphics** for client projects. This is a **project-based role**, where assignments depend on the specific project scope and requirements.

Responsibilities

- Design clean, modern, and user-friendly web pages
- Create supporting graphics for websites (icons, banners, UI elements)
- Ensure designs align with client branding and project goals
- Deliver production-ready files for developers or web platforms

REQUIREMENTS

- Proven experience in web design (portfolio required)
- Basic graphic design skills (Photoshop, Illustrator, Figma, or similar)
- Strong eye for layout, typography, and color
- Ability to work independently and meet project deadlines

Hiring organization

SEE® - Seferi Engineering Enterprises

Employment Type

Contractor

Job Location

Tirana, Albania
Remote work possible
